V O T E S

OF THE

House of Commons.

Martis, 8 Die Octobris, 1751.

THE House met, according to the Prorogation of the Parliament, to this Day.

A Message from his Grace the Lord Lieutenant, by *William James, Esq;* Gentleman Usher of the Black Rod :

Mr. Speaker,

It is His Grace the Lord Lieutenant's Pleasure, that this House do attend Him immediately in the House of Peers.

Accordingly *Mr. Speaker* with the House went to attend His Grace.

And being returned ;

Mr. Speaker reported that the House had attended His Grace the Lord Lieutenant in the House of Peers, where His Grace was pleased to make a Speech to both Houses of Parliament, of which, *Mr. Speaker* said, he had, to prevent Mistakes, obtained a Copy, which he read to the House ; and the same was afterwards read by the Clerk, at the Table, and is as follows :

My Lords and Gentlemen,

IS H A L L ever esteem it the greatest Honour, and my peculiar Happiness, that the same Gracious Sovereign, who formerly placed me in this High Station, hath again commanded me to meet a Parliament, whose dutiful and affectionate Attachment to His Royal Person and Government I have so often experienced, and upon all Occasions have faithfully represented to His Majesty.

A sincere Zeal for His Majesty's Service and for your Prosperity, shall ever be the governing Principle of my Administration, and my perfect Knowledge of your Temper and Unanimity, as-

A

sures

tures me, that We all meet with equal Inclination to promote the Publick Welfare.

The zealous Concern, that His Majesty's faithful Subjects of *Ireland*, have so eminently shewn, for the Preservation of the Crown in His Illustrious House, leaves me no room to doubt that you were deeply affected by the late Publick Loss, which these Nations have sustained : And you must be filled with the warmest Sentiments of Reverence and Gratitude, when you consider the Greatness, and the Goodness of His Majesty's Mind, who immediately proposed those salutary Provisions, which have since passed into a Law, for guarding against every remote Danger, and for securing His People, as far as human Wisdom could reach, against the Consequences of any fatal Event.

Gentlemen of the House of Commons,

I HAVE ordered the proper Officers to prepare the several Accounts and Estimates to be laid before you, as also a particular Account of the Money expended in repairing, rebuilding, or building Barracks, pursuant to your Address in a former Session of Parliament.

It gives me great Satisfaction, to observe the extraordinary Produce of the Funds, which you have formerly granted, and I have nothing now to ask but the usual Supplies.

I am commanded by the King to acquaint you, that His Majesty, ever Attentive to the Ease and Happiness of His Subjects, will graciously consent, and recommends it to you, that, such a Part of the Money now remaining in His Treasury, as shall be thought consistent with the Publick Service, be applied towards the further Reduction of the National Debt.

My Lords and Gentlemen,

THE two great Objects which demand your constant and most serious Attention, are, the Security of the Protestant Interest, and the Advancement of your Trade. It must necessarily occur to you, how much the Support of the Charter Schools, and the Encouragement of your Linnen Manufactures, will contribute to the Attainment of these Important Ends, and what farther Provisions may be expedient, will be the Subject of your Deliberations. My Conduct shall convince you, that nothing on my Part shall be wanting that may effectuate His Majesty's gracious Intentions, to make His Subjects of *Ireland* as happy, as I know them to be dutiful and loyal.

To assure His Majesty, that we will cheerfully grant the usual Supplies; and to acknowledge His Majesty's Royal Attention to our Ease and Happiness, in recommending to us the Application of the Money now remaining in the Treasury (so far as it may be consistent with the Publick Service) towards the farther Reduction of the National Debt. To assure His Majesty of our constant Attention to the Security of the Protestant Interest in this Kingdom, and the Advancement of our Trade; That we will take into our particular Consideration, what farther Measures may be necessary for the Support of the Protestant Charter-Schools, and the Improvement of our Linnen and Hempen Manufactures; and, that we will endeavour to recommend ourselves to the Continuance of His Royal Favour, by promoting in the most effectual Manner, the Publick Welfare.

VOTES

OF THE

House of Commons.

Jovis, 10 Die Octobris, 1751.

THE Right Honourable Lord George Sackville reported from the Committee, appointed to know his Grace the Lord Lieutenant's Pleasure, when He will be attended with the Addressees of this House to His Majesty and to His Grace; that they had attended His Grace accordingly, and that he was pleased to appoint this Day, at Three of the Clock in the Afternoon, at the Castle.

And then the House adjourned until half an Hour after three of the Clock in the Afternoon.

Post Meridiem.

Mr. *Speaker* reported that the House, —attended His Grace the Lord Lieutenant, at the Castle, with the Address of this House to his Majesty, which Address is as follows:

To the KING's Most Excellent MAJESTY.

The Humble Address of the Knights, Citizens and Burgeesses in Parliament assembled.

Most Gracious Sovereign,

WE Your Majesty's most dutiful and loyal Subjects, the Commons of *Ireland*, in Parliament assembled, beg Leave to present Your Majesty our unfeigned Thanks, for those Gra-
D cious

cious Intentions for the Advancement of our Happiness, of which Your Majesty hath given us a most signal Instance, by again delegating Your Royal Authority to His Grace the Duke of *Dorset*, whose former Administration was one continued Proof of His Grace's sincere Zeal for Your Majesty's Service, and the Prosperity of this Kingdom.

Permit us, Sir, with all Humility, to condole with your Majesty, on the great Publick Loss, lately sustained by these Nations, and to express our Reverence and Admiration of that Heroic Constancy of Mind, which not only supported Your Majesty under the Pressure of so heavy an Affliction, but enabled You to exert Your Royal Vigilance to guard Your Faithful Subjects (as far as human Prudence can guard them) from the dangerous Consequences, which might otherwise arise from any fatal Event.

Truly sensible of the unparalleled Justice and Benignity of Your Majesty's auspicious Reign, we cannot, without the deepest Anguish, look forward to that Period, which Your Majesty contemplated with the greatest Fortitude and Serenity; and we ardently wish, that that most salutary Law, which with the warmest Sentiments of Gratitude, we ascribe to Your Majesty's consummate Wisdom, may by the Goodness of Divine Providence, become unnecessary by lengthening that precious Life, upon the Continuance of which, the Felicity of all Your Subjects so much depends.

We assure Your Majesty, that we will with the greatest Cheerfulness and Unanimity, grant the usual Supplies; and as we have at all Times abundantly experienced Your Majesty's paternal Goodness, so we acknowledge with particular Satisfaction and Thankfulness, Your Majesty's Gracious Attention to our Ease and Happiness, in recommending to us the Application of the Money now remaining in the Treasury (so far as it may be consistent with the Publick Service) toward the farther Reduction of the National Debt.

We should be wanting to ourselves, if we at any Time neglected those great Objects, the Security of the Protestant Interest in this Kingdom, and the Advancement of our Trade; and shall take into particular Consideration, what farther Measures may be necessary for the Support of the Protestant Charter Schools, and the Improvement of our Linen and Hempen Manufactures; and are assured, by long and happy Experience, that we can no Way so acceptably recommend ourselves to the Continuance of

Your

Your Majesty's Royal Favour and Protection, as by promoting, in the most effectual Manner, the Publick Good.

And that thereupon His Grace was pleased to return the Answer following :

I Will take the first Opportunity to Transmit this dutiful and loyal Address to be laid before His Majesty.

Ordered,

That His Grace the Lord Lieutenant's Answer be entered in the Journal of this House.

Mr. *Speaker* reported also, that he had at the same Time presented the Address of Thanks of this House to His Grace, for His Speech to both Houses of Parliament, which Address is as follows :

**To His Grace LIONEL Duke of *Dorset*,
Lord Lieutenant General and General
Governor of *Ireland*.**

The Humble Address of the Knights, Citizens, and
Burgesses in Parliament assembled.

May it please your Grace,

WE His Majesty's most dutiful and loyal Subjects the Commons of *Ireland*, in Parliament assembled, return Your Grace, our most humble Thanks for Your Excellent Speech from the Throne, and beg Leave at the same Time, to express our sincerest Congratulations on Your Grace's happy Return to the Government of this Kingdom.

We consider it as a very peculiar Instance of His Majesty's Goodness to His Subjects of *Ireland*, that He hath again committed them to Your Grace's Care ; Your former Administration must be gratefully remembred, as the Effects of it are still most sensibly felt by us ; but the Concern that Your Grace has since shewn for the Welfare of this Kingdom, and the effectual Support You have given to our Interests, in the several Stations You have so eminently filled, must now create in Us a Satisfaction which Words cannot sufficiently express.

We

We beg Leave to assure Your Grace, that we will readily and chearfully grant such Supplies, as shall be necessary for the Support of His Majesty's Government; His Majesty's gracious recommendation, that a Part of the Money now in the Treasury, should be applied towards the Reduction of the National Debt, is a convincing Proof (if any were yet wanting) That His Majesty is ever attentive to the Ease and Happiness of His People, and that Your Grace hath made them the constant Objects of Your Consideration.

Your Grace hath been pleased to point out to Us the Security of the Protestant Interest and the Extending our Trade and Manufactures, as important Objects of our Deliberations; these we shall steadily pursue, with the utmost Temper and Unanimity.

Animated as we are with the strongest Sense of Duty and Loyalty, to the best of Kings, and possessed with the fullest Confidence of Your Grace's Zeal for His Service, and of your distinguished good Disposition towards Us, We shall not fail to contribute every thing in our power, to make Your Administration as Easy and as Honourable to Your Grace, as we are assured it will prove happy and advantageous to the Publick.

And that thereupon His Grace was pleased to return the Answer following.

I AM extremely obliged to the House of Commons, for this very kind Address. This publick Mark of Your Satisfaction on my Return to this Kingdom, gives me the greatest Pleasure, and I shall take every Opportunity of convincing You that I have nothing so much at Heart, as the true Interest of Ireland.

Ordered,

That His Grace the Lord Lieutenant's Answer, be entered in the Journal of this House.

Resolved,

That this House will To-morrow Morning, take into Consideration, His Grace the Lord Lieutenant's Speech, to both Houses of Parliament.

That in the Nineteenth of His Majesty's Reign, the Parliament granted an Aid for the Use of Society, by a Duty on Hawkers and Pedlars. That by these Aids, and the annual Subscriptions and Benefactions received from several Persons in *Great-Britain*, this Kingdom, and His Majesty's Plantations in *America*, the Society hath been enabled to erect *forty Schools*, and to maintain in them, one thousand four hundred Children of both Sexes, who are educated in the Protestant Religion, and trained up in useful Labour. OF THE

House of Commons.

Martis, 7 Die Januarij, 1752.

THE Right Honourable Sir *Arthur Gore* (according to Order) presented to the House Heads of a Bill, *to enable the Right Reverend Father in God, Joseph, Lord Bishop of Kilmore, and his Successors, to exchange certain Lands belonging to the said See, with William Gore, Esq; which were received, read, and committed.*

Resolved,

That this House will To-Morrow Morning resolve itself into a Committee of the whole House, to take the said Heads of a Bill into Consideration.

A Petition of the Governors of the Work-House of the City of *Dublin*, setting forth, That the said Work-House was founded by Act of Parliament, in the Second Year of the Reign of Queen *Ann*, and being then intended only for the Benefit of the said City, and adjoining Liberties, to employ and maintain such of the Poor thereof, as were above the Age of Five Years; the Corporation of the City gave a Piece of Ground for the Scite of the House, and endowed the Charity with Lands of Inheritance, then of the yearly Value of One Hundred Pounds, but which

Y y

have

have been improved to One Hundred and Thirteen Pounds Two Shillings; and by the said Act of Parliament certain Taxes were given upon Carriages plying for Hire, and upon all Houses within the said City, and the adjoining Liberties for the further Support of this Charity. That by a Subsequent Act in the first Year of his present Majesty's Reign, made for the better regulating the said Work-House, the former Corporation was dissolved, and the Corporation now subsisting created, and for its Revenue the Land granted the former Corporation was vested in this, the Tax on Houses was continued, and an Addition made to that upon Carriages; and by the said last mentioned Act, none were to be admitted into the Work-House under the Age of Six Years; and for the Support of the Foundlings of the said City and Liberties under that Age, the Parishioners of the several Parishes, in Vestry assembled, were impowered to make such Parish Cesses from Time to Time, as should be thought necessary for that Purpose. That soon after the passing of the last mentioned Act, many Foundlings were destroyed in the said City and adjoining Liberties, by a Practice of conveying them from one Parish to another, in order to avoid the Expence of their Maintenance; for Remedy of which Abuse, an Act was made in the Third Year of His present Majesty's Reign, whereby the Petitioners are required to receive from the Church-Wardens of the respective Parishes, all the Children found exposed in the said City and Liberties adjoining, under the Age of Six Years, and for the Maintenance of such Foundlings 'till they should arrive at that Age, an additional Tax was laid upon Houses, and the Petitioners are required by the same Act to keep a distinct and separate Account of this additional Fund, and of the Uses to which the same is applied. That by the Increase of Foundlings in the said City and Liberties under the Age of Six Years, (none of whom without a Breach of the last mentioned Act could be rejected) the Fund provided as aforesaid for their Maintenance became deficient, and by Means of such Deficiency the Petitioners were under a Necessity of contracting large Debts, for discharging of which, they were enabled by an Act passed in the Nineteenth Year of His present Majesty's Reign, to Mortgage their said Lands for any Sum not exceeding Fifteen Hundred Pounds, and by the same Act they were impowered to apply the Redundancy of the other Funds from Time to Time, in Augmentation of the Fund provided as aforesaid for the Foundlings, which they had before been under a Necessity of

of doing, without any Authority for that Purpose. That the Petitioners, under the Powers given them by the said last mentioned Act, raised five hundred Pounds by a Mortgage of their Lands, and applied the same in Discharge of so much of the Debt then due, and have all along applied the whole Redundancy of the other Funds in Augmentation of that provided for the Foundlings, yet notwithstanding such Application, and the Money so raised by Mortgage, and an Extraordinary Sum of One Thousand Four Hundred and Twenty One Pounds Ten Shillings, raised in the Year 1749, by granting new Licenses for Carriages, the Petitioners on the Twenty Fifth of *March* last, (being the Time of closing the Year's Accounts) were indebted on Account of the Foundlings under the said Age, in the Sum of Six Hundred and Nine Pounds Twelve Shillings and Nine Pence Half-penny, after applying to that Account the Redundancy of the other Funds over and above the Ballance then in the Hands of their Officer, and over and above the Amount of the Foundling Fund, for the Year then ending, not yet received ; so large a Debt still remaining, after the late extraordinary Aids, is partly owing to the Increase of the Foundlings, and partly to a former Debt, of about Eight Hundred Pounds, which remained unsatisfied after the Five Hundred Pounds Mortgage Money was applied as aforesaid. That there being a large Deficiency in the Foundling Fund for these many Years past, and the Petitioners being obliged to receive all Children under the Age of Six Years, found exposed in the said City or adjoining Liberties, they were under a Necessity of abridging the Purposes of the original Foundation, in order to augment the Foundling Fund, by a Saving on the other Funds ; and by abridging those Purposes, as far as could be done, without wholly subverting the original Institution. That Saving or Redundancy on the original Funds, now amounts to about Five Hundred and Sixty Pounds *per Annum*, but there being a growing annual Deficiency of above One Thousand One Hundred Pounds on the Foundling Fund, there is a Deficiency of about Five Hundred and Forty Pounds *per Annum*, upon the whole, after applying the annual Redundancy of the original Funds in augmenting the Fund provided for the Foundlings. That this Redundancy of the original Funds (as the Petitioners humbly apprehend) is acquired by Means inconsistent with the Purposes of the original Foundation, so that if those Purposes were fully answered, there would remain a Deficiency of above One Thousand One Hundred Pounds *per Annum*, upon the Whole.

Whole. That as the Number of Foundlings annually received hath been gradually increasing for many Years past, the Petitioners apprehend there will in all Probability, be a further Increase for the Time to come, and in Consequence thereof, a proportionable Increase in the Deficiency of the Funds. That although the whole Expences of this Charity, have been hitherto defrayed by the Inhabitants of the City of *Dublin*, the Petitioners have reason to believe that many of the Foundlings thereby maintained of late Years, have been brought from various other Places (some from the remote Parts of the Kingdom) and have been privately conveyed into the said City, and there left exposed, in order to receive the Benefit of the said Charity; several Instances of this Kind have been discovered, and from the Difficulty of detecting such clandestine Practices, the Petitioners apprehend there are many Instances of the like Nature, which remain undiscovered. That the Petitioners humbly apprehend that this Charity hath had, and (if fully supported) will continue to have a considerable Effect in promoting the Protestant Interest. And Praying Relief; was presented to the House and read.

Ordered,

That the Consideration of the said Petition be referred to a Committee, and that they do examine the Matter thereof and report the same with their Opinion thereupon to the House.

And a Committee was appointed accordingly.

And they have Power to send for Persons, Papers and Records, and to adjourn from Time to Time, and Place to Place, as they shall think fit, and all Members who come, are to have Voices.

A Complaint being made to the House (from the Committee to whom the Petitions of *Richard Gore*, Esq; and *Ann* his Wife, and of *John Wallis*, Esq; are referred) That *Joseph Grinfil*, one of the Contractors for repairing the Road leading from the City of *Kilkenny* to the Town of *Clonmell*, being summoned to attend the said Committee, refused to obey the said Summons.

Ordered,

That the said *Joseph Grinfil* be (for his Contempt in not obeying the Summons of the Committee) taken into the Custody of the Serjeant at Arms attending this House.

That the Committee of the whole House, (to whom Heads of a Bill, for making and repairing the Road leading from the Town of Athy, in the County of Kildare, through Part of the Queen's-County, and through the Town of Castlecomer, in the County of Kilkenny, to the Town of Leighlinbridge, in the County of Carlow ; are committed) be empowered to receive a Clause, to enable the Trustees to Farm the Tolls or Duties to arise on the said Road for one or two Years.

And then the House (according to Order) resolved itself into the said Committee, and after some Time spent therein, Mr. *Speaker* resumed the Chair.

Mr. *Fitzgerald* reported from the Committee, that they had gone through the said Heads of a Bill, and that he was directed to report when the House will please to receive the same.

Resolved,

That the Report be received To-morrow Morning.

Mr. *Morgan* (according to Order) reported from the Committee of the whole House, to whom Heads of a Bill for better securing the Liberty of the Subject, were committed ; that they had gone through the said Heads of a Bill, Paragraph by Paragraph, and agreed thereto, with some Amendments, which he read in his Place, and afterwards delivered in at the Table.

A Petition of the several Persons thereunto subscribing, in behalf of themselves, and several Gentlemen, Merchants, Freeholders, Citizens, and other Inhabitants, in the City of *Dublin*; setting forth, That the Petitioners, Inhabitants of the City of *Dublin*, labour under the greatest Disadvantages and Inconveniencies, for want of an easy and expeditious Communication between the *North* and *South* Side of the River *Anna Liffey*, to prevent which, they apprehend there is a Necessity for opening such an Intercourse, by building a new Bridge on the River *East* of *Essex-bridge*, as will manifestly appear, when its considered, that a cheap and expeditious Intercourse, by Carriages and other ways of conveying Commodities, is as much for the Public Utility of a City, as good Roads and navigable Rivers are, for a Country in general. That the City has been considerably extended, and hath increased in more than double the Number of Houses and Inhabitants, since *Essex-bridge* was built, and more particularly *Eastward* of *Essex-bridge*, on the *North* and *South* Side of the River, and as the Reason for building all the Bridges, was the Increase of Houses and Inhabitants, The present great Increase, is a sufficient Reason for applying for a new Bridge. That as *Essex-bridge* is in a very ruinous Condition, should it fall before a new Bridge is built, it would cut off in a great Measure, the Communication between the Inhabitants of the *North* and *South* Side of the River; which Inconveniency, the Petitioners apprehend, must continue for some Years, whereas by building a new Bridge, and making the old a safe Passage, until the new one is finished, all those Inconveniencies will be avoided. And praying the House to take the Premises into Consideration, and to give them Relief: was presented to the House and read.

Ordered,

That the Consideration of the said Petition, be referred to a Committee, and that they do examine the Matter thereof, and report the same, with their Opinion thereupon to the House.

And a Committee was appointed accordingly.

And they are to meet in the *Speaker's* Chamber, this Day Seven-night, Nine of the Clock in the Morning, and they have Power to send for Persons, Papers and Records, and to adjourn from Time to Time, and Place to Place, as they shall think fit, and all Members who come, are to have Voices.

Resolved,

I. That it appears to this Committee, that the Trustees have given their Clerk and Treasurer Ten Pounds a Year more than what is allowed by the Act of Parliament.

Resolved,

II. That it appears to this Committee, that the neat Produce of the Tolls in that Part of the Road, which lies in the County of *Cork*, amounted in the Year 1741, to the Sum of Fifty-two Pounds, and in the Six subsequent Years to forty Pounds yearly, and from the seventh of *April* 1747 to this present Time, to the Sum of Fifty-five Pounds yearly, and that no Part of the said Tolls was laid out on that Part of the Road, except about seven Pounds that was expended upon the Bridge of *Killsbannon*.

Resolved,

III. That it appears to this Committee, That that Part of the Road which lies in the County of *Tipperary* is in good Repair.

Resolved,

IV. That it appears to this Committee, That that Part of the Road which lies in the County of *Cork*, is in a ruinous Condition.

Resolved,

V. That it appears to this Committee, that the present yearly neat Produce of the Tolls of the Turnpike Road amounts to the Sum of Two Hundred and Fifty Eight Pounds.

Resolved,

VI. That it is the Opinion of this Committee, that an accepted Proposal of *Daniel Liniban* late Clerk and Treasurer to the said Trustees, and an Article or Contract in Pursuance thereof executed by them at *Clonmell* on the Second of *April* 1747, whereby the Tolls of the said Road are farmed to said *Liniban* for Twenty one Years, in Consideration of his Repairing and keeping

ing in Repair that Part of the Road which lies in the County of *Tipperary* only, and whereat no one County of *Cork* Trustee was present, is contrary to the Intent of the Act of Parliament, and destroys the Benefit that the Road in the County of *Cork* may receive from a due Execution thereof, and that the said Contract is in itself void.

Resolved,

VII. That it is the Opinion of this Committee, that the Sum of Two Hundred Pounds of the Tolls be annually applied towards repairing the Road from *Knockboy* to *Doneraile*, until the same be sufficiently repaired.

Resolved,

VIII. VOTES

OF THE

House of Commons.

Sabbati, 8 Die Februarij, 1752.

A Petition of the Lord Mayor, Sheriffs, Commons and Citizens of the City of *Dublin*, in Common-Council assembled; setting forth, That the building of a Bridge to the Eastward of *Essex-Bridge*, will prevent the unloading of Goods at the Custom-house Quay, by which not only an additional Expence will be created by sending Goods thither by Gabbards, but many Commodities may be damaged by such double unshipping. That a great Part of the River within the Walls, which at present is full Scanty for the Lying of the trading Ships, will thereby be taken away, and not sufficient Room left within the Walls, for the Vessels trafficking to this City. That the Expence of Coals must rise on the Inhabitants, as the Colliers then cannot come to unload at their usual Stations, and the Carriage of Goods must also be increased in Proportion to the Distance

stance the Ships are obliged to lie from the City. That many Persons who have laid out great Sums of Money in erecting Buildings, in the remote Parts of the City, must be greatly injured by such new Bridge. That the City have by particular Grant from the Crown a Ferry over the River *Liffey*. And the Petitioners praying to be heard by their Council, against such intended new Bridge, or to grant them such other Relief, as the House shall seem fit.

As Also,

A Petition of the Masters, Wardens, Brethren and Sisters, of the Fraternity, or Guild of the Holy-Trinity of *Dublin*, in their Common-Hall assembled ; setting forth, That the Petitioners having with great Concern observed, in the printed Votes of this House, that a Petition has been preferred for the building of a Bridge over the River *Anna Liffey*, in the City of *Dublin*, to the Eastward of *Essex-Bridge*, do humbly apprehend, that they and the Trade and Commerce of this City will be greatly injured by the building of said Bridge. That the whole River as far as *Essex-Bridge* is not more than sufficient for the convenient Lying and Accommodation of the Ships, trading to and from the City of *Dublin*. That the safest and best Lying for Ships is between the *Ferry-Boat* and *Essex-Bridge*, and that the building the Bridge petitioned for, will deprive the Petitioners, and the other Persons trading to and from the City of the best Accommodation for Ships, and will not leave Room sufficient for the Ships engaged in Trade. That the lading and unlading of Ships on the several Quays, to the Westward of the *Ferry-Boat*, are attended with great Advantage to the Petitioners, and to all other Persons trading to and from the City ; and the Petitioners apprehend, that by the building of the Bridge proposed, the Petitioners and all other Persons trading to and from the City, will be put to considerable Expence, in the Carriage of the Imports and Exports, and be subject to great Losses by Waste, and Imbezlement by the Lightermen and other Carriers, and by Damage done to the Goods in putting them into Gabbards. That all additional Charges attending the Exports will be prejudicial to the Nation in general.

neral, and that all additional Charges upon Imports will increase the Price thereof to the Consumers. That proper Accommodation for Ships is an Encouragement to Trade and Commerce, and will advance the same. That *Essex-Bridge*, and the four other Bridges in the City, do afford a reasonable Communication between the Inhabitants of the Northern and Southern Parts of the City, and that the enlarging of *Essex-Bridge* is in great Forwardness, and a Presentment already made for the same. That several of the Petitioners have laid out considerable Sums of Money, in erecting Ware-houses and other Conveniences for carrying on their Trade, and that the Value thereof will by the building of any Bridge to the Eastward of *Essex-Bridge* be greatly lessened. And Praying the House to take the Petitioners Case into Consideration, and grant that the Petitioners may be heard by their Council against the said Petition, or to grant the Petitioners such other Relief, as the House shall think fit.

As Also,

A Petition of several Inhabitants of the City of *Dublin*, thereunto subscribing, in Behalf of themselves and other the Inhabitants of the said City, and the Liberties thereunto belonging; setting forth, That the Petitioners are informed that a Petition is presented to this House, for the building of a Bridge over the River *Anna Liffey*, to the Eastward of *Essex Bridge*. That the Petitioners apprehend the building such Bridge will be highly detrimental to the Trade and Commerce of the said City, as it will prevent the lading and unlading of Ships at the *Custom-House Quay*, and all other Quays to the Westward or the said intended Bridge, which besides the additional Expence of Lighterage, will be attended with great Imbezlement. That the safest and most useful Part of the River within the Walls (which at present is scarce sufficient for the lying of the Trading Ships) will thereby be taken away. That the Price of Coals and many other the Necessaries of Life, must rise on the said Inhabitants, as the Colliers and other Ships then cannot come to unload at their usual Stations, and the Carriage of Goods must also be increased, in Proportion to the Distance

Distance they are obliged to lie from the City, and the Price of Manufactures thereby considerably enhanced. That many Persons who have laid out great Sums of Money in erecting Buildings, in the Middle and remote Parts of the City, must be greatly injured by such new Bridge, and the Petitioners are apprehensive that the said City will thereby be more subject to Floods. And Praying the House to take the Petitioner's Case into Consideration, that the Petitioners may be heard by their Council against the said Bridge, or to grant them such other Relief as the House shall think fit.

As also,

A Petition of the Seneschal and Grand Jury of the Liberty of Saint *Sepulchres*, and the several other Persons whose Names are thereunto subscribed; in behalf of themselves and other Inhabitants of said Liberty, setting forth; That the Liberty of St. *Sepulchres*, is an ancient and populous Liberty, adjoining to the City of *Dublin*, and inhabited for the most Part, by Persons engaged in Trade and Manufactures, and that particularly a considerable Part of the Butter and Beef Trade for Exportation, is carried on through said Liberty. That the Trade of said Liberty principally depends on its nearness to the Center of Trade in the City of *Dublin*. That the Petitioners apprehend, they will be much prejudiced by the building a Bridge Eastward of *Essex-bridge*, as the Price of their Fuel will be thereby enhanced, and the Carriage of their Goods raised, besides many other Losses and Inconveniencies, which they must expect from the Trade of the City, being removed to a greater Distance from them. That therefore such a Bridge will greatly affect the Properties of many of the Petitioners who have Lands or Houses in the said Liberty, the Value of which must, as the Petitioners apprehend, of necessity fall very considerably. And praying that the Petitioners may be heard by their Council before the Committee, to whom the Petition for building the said new Bridge is referred, and that the House will take the Petitioners Case into Consideration, and give them such Relief as to the House shall seem meet.

And

And also.

A Petition of the Dean and Chapter of the Cathedral Church of St. Patrick, Dublin; setting forth, That the Cathedral Church of St. Patrick near Dublin, of which the Petitioners are the Dean and Chapter, is an ancient and large Building, which stands in need of frequent and expensive Repairs. That the Petitioners and their Predecessors have been enabled for upwards of five hundred Years, to maintain it in due Repair, and in a proper Condition for the Performance of divine Worship. That a great part of the Fund by which they have been enabled so to do, consists in the Rents of very many Houses and Tenements, adjacent to the Church. That the Petitioners humbly apprehend, that the erecting a Bridge to the Eastward of Essex bridge, will be greatly prejudicial to them, by lessening the Rents, if not laying waste many of those Houses, the Rents and Profits whereof, have been so applied. And praying to give the Petitioners Leave to be heard by their Council, and to grant the Petitioners such Relief, as to the House shall seem meet.

Were severally presented to the House and read.

Ordered,

That the said several Petitions be referred to the Committee, to whom the Petition for building the said new Bridge is referred. And that the Petitioners, in the said several Petitions, be heard by their Council (if they think fit) before the Committee.

Ordered,

That the Petitioners for the said new Bridge be heard by their Council (if they think fit) in favour of their Petition, before the Committee.

The House (according to Order) resolved itself into a Committee of the whole House, to take into further Consideration, Heads of a Bill, for altering and amending the Law, in relation to the Flaxen and Hempen Manufactures; and after some time spent therein, Mr. Speaker resumed the Chair.

Mr. *Foster* reported from the Committee, that they had gone through the said Heads of a Bill, and that he was directed to Report, when the House will please to receive the same.

Resolved,

That the Report be received on *Monday* Morning next.

Ordered,

That the Orders of the Day (not proceeded upon) be adjourned until *Monday* Morning next.

MR. *Richardson* of *Rich-Hill* reported from the Committee, appointed to examine into the Accounts of the Money expended in building, re-building, and repairing the Barracks, and also to enquire into the present State and Condition of the Barracks, built, re-built, or repaired, since the Year 1746, the Matter as it appeared to them, with the Resolutions of the Committee thereupon, and he read the Report in his Place, and afterwards delivered the same in at the Table, where the Report was again read, and the Resolutions are as follow :

Resolved,

I. That it is the Opinion of this Committee, that the Earl of *Harrington*, late Lord Lieutenant of this Kingdom, by laying before His Majesty, a Scheme and Estimates for building, re-building and repairing of Barracks, and obtaining His Royal Approbation thereof, took the most prudent and certain Measure to execute the Trust reposed in Him, by the Address of the House of Commons, of the Ninth of *December* 1747, with Honour to himself and Advantage to the Publick.

Resolved,

II. That it appears to this Committee, that the Lords Justices of this Kingdom, did inclose to *Arthur Jones Nevill*, Esq; Surveyor and Engineer-General, a Copy of a Scheme and Estimates as approved of by His Majesty, together with proper Instructions for his Conduct, in building, re-building, and repairing of Barracks, wherein they particularly charged him to be extreamly cautious with whom he contracted, especially that they should be substantial, as well as honest and able Workmen, that he should be particularly attentive to the several Materials to be

made use of, that they should be the best and most durable of their Kind, and in the whole Conduct and Progress of the several Works entrusted to his Care, that he should consider the Good and Convenience of His Majesty's Service, and the Ends proposed by the House of Commons in their Address.

Resolved,

III. That it appears to this Committee, that *Arthur Jones Nevill*, Esq; Surveyor and Engineer General, did contrary to his Instructions, contract with several Persons who were not Workmen, and did knowingly suffer others, not Workmen, to make use of Names of Workmen as Contractors, tho' they were not to execute the Work, or to have any Share of the Profit, notwithstanding he hath asserted the contrary in his Memorial to the Lords Justices, of *March 26, 1751*.

Resolved,

IV. That it appears to this Committee, that *Arthur Jones Nevill*, Esq; Surveyor and Engineer-General, in most of the Contracts allowed extravagant Prices to the Contractors, without due Consideration, had, of the Prices of Materials, or Workmanship in the Places where the said Works were to be executed.

Resolved,

V. That it appears to this Committee, that notwithstanding the extravagant Allowances made to the Contractors, by *Arthur Jones Nevill*, Esq; Surveyor and Engineer-General, he hath in many Instances raised the Prices of several of the Particulars contained in such Contracts, and hath actually charged the Nation with such advanced Prices, though it appears, the first Prices contracted for, were more than sufficient for the Work.

Resolved,

VI. That it appears to this Committee, that *Arthur Jones Nevill*, Esq; Surveyor and Engineer-General raised the Prices of several Articles contracted for, by *Thomas Roberts*, Contractor for *Charles Fort*, *Rosscarbery* and *Inchageela* Barracks; particularly the Price of Flooring at *Charles Fort*, from Thirty-eight Shillings to Fifty Shillings per Square, though the said *Roberts* confessed Thirty-eight Shillings to be a sufficient Price, and at *Inchageela* from Forty Shillings and Forty-four Shillings to Fifty Shillings per Square, and at *Rosscarbery*, from Forty-six Shillings to Fifty Shillings per Square, without the Knowledge of said *Roberts*, and that the said *Roberts* received no Part of the said advanced Prices, though the Nation stands charged therewith.

Resolved,

VII. That it is the Opinion of this Committee, that the old Materials of the Barracks which were rebuilt, ought to have been accounted for to the Publick, but that no sufficient Allowance has been in any Case made for the same, and in most Cases Allowance.

Resolved,

VIII. That it appears to this Committee, that *Arthur Jones Nevill*, Esq; Surveyor and Engineer-General, paid off several of the Contractors, notwithstanding he was fully apprised that they had not executed their Works agreeable to their Contracts.

Resolved,

IX. That it appears to this Committee, that *Arthur Jones Nevill*, Esq; Surveyor and Engineer-General, persuaded *Dominick Burke* Barrack Master of *Loughbreagh*, to give unto *Richard Reily*, and *Edward Byrne* a Certificate of the said Barracks being executed properly according to the Bill of Scantling, to intitle the said *Reily* and *Byrne* to Payment, though he knew the Barrack was not properly finished, by which the Publick has been greatly defrauded.

Resolved,

X. That it appears to this Committee, that several of the Affidavits that were sent to *Arthur Jones Nevill*, Esq; Surveyor and Engineer-General, of the Sufficiency of Work and Materials, were made by the Contractors themselves, or by Workmen employed under them.

Resolved,

XI. That it appears to this Committee, that *Arthur Jones Nevill*, Esq; Surveyor and Engineer-General, gave *Lawrence Purfield*, Measurer, when he was sent upon his Circuit Instructions in writing, particularly, to report the Condition of the Buildings, and that the said Surveyor-General, after the said *Purfield's* Return, in many Instances, advanced the Prices for the Advantage of the Contractors, and charged the Nation according to such advanced Prices, though no report was made to him by the said *Purfield*, of the Sufficiency of the said Buildings, nor any such Report required by the Surveyor-General.

Resolved,

XII. That it appears to this Committee, That *George Enfor*, Clerk to *Arthur Jones Nevill*, Esq; Surveyor and Engineer-General,

neral, received several Sums of Money and Presents from Persons who contracted to build, re-build, and repair Barracks.

Resolved,

XIII. That it appears to this Committee, That *George Ensor*, though a Clerk in the Office of *Arthur Jones Nevill*, Esq; Surveyor and Engineer-General, became a Contractor, for building of several Barracks, prepared his own Estimates, and made his Contracts thereon, without any Alteration made therein by the Surveyor-General.

Resolved,

XIV. That it appears to this Committee, from the Examination of *George Ensor*, Clerk to *Arthur Jones Nevill*, Esq; Surveyor and Engineer-General, that he was discharged from the publick Exercise of his Office, by the said Surveyor-General, on Account of a Bribe which was discovered at the Barrack-Board, to have been taken by him from a Barrack Master; notwithstanding which, he continued in his Confidence and was employed by him, in fixing Prices to the Bills of Admeasurement, and in adding to the Sums originally contracted for.

Resolved,

XV. That it is the Opinion of this Committee, that *Arthur Jones Nevill*, Esq; Surveyor and Engineer-General, in many of the Contracts entered into by him, for the building, rebuilding, and repairing of Barracks, and in conducting said Work, hath acted without Judgment, Care, or Oeconomy.

Resolved,

XVI. That it appears to this Committee, that *Arthur Jones Nevill*, Esq; Surveyor and Engineer-General, hath in many Instances, shewed unjustifiable Favour to Contractors, for building, rebuilding, and repairing of Barracks, to the great Detriment of the Publick.

Resolved,

XVII. That it appears to this Committee, that *Arthur Jones Nevill*, Esq; Surveyor and Engineer-General, hath acted unwarrantably, in departing from the Scheme and Estimate, approved of by His Majesty, and annexed to the Letter of the Lords Justices of *Great Britain*, which was transmitted by the Earl of *Harrington*, to the Lords Justices of this Kingdom.

Resolved,
